

Statewide Math Fair 2017

**Vermont Council
of Teachers of
Mathematics**

The
UNIVERSITY
of **VERMONT**

The Vermont Council of Teachers of Mathematics is sponsoring a Mathematics Fair for student projects on Saturday, March 25, 2017 at the University of Vermont.

All Vermont students are eligible to enter.

**MATH FAIR REGISTRATION DEADLINE:
FEBRUARY 17th 2017**

Visit <https://vctm.wildapricot.org/> for more information and to fill out the online registration form (available September 2016). Fill out **one** form for each project.

There will be an \$8.00 non-refundable, registration fee for each project; payment must be postmarked by **February 22th, 2017**. (Checks made payable to VCTM.)

- When sending in the registration fee, please include all students' names that are covered by the payment.
- No student substitutions will be permitted. No late registrations will be accepted.

Note: See the website for more information and registration.

The maximum size of the project:

- A. One (1) meter in width (side to side)
- B. One and a quarter (1.25) meters in height
- C. Any displayed items must fit on the table in front of the project board.

NOTE: There can be no add-ons on the sides or on the top that extend the size of the project board.

All projects must be displayed on a tri-fold project board. All measurements will be made at the widest points. Projects that fail to meet these requirements will not be judged.

Eligibility and Categories

All Vermont students are eligible to enter. Projects may be entered in the following categories:

Grades K-2 (Individual* or Class Projects)

Grades 3-4 (Individual* or Class Projects)

Grades 5-6 (Individual* or Class Projects)

Grades 7-8 (Individual* Projects)

Grades 9-12 (Individual* Projects)

Class projects must involve a majority of the students in that class. Individual projects involve one or two students only. Projects must be pre-registered (online) to be accepted for competition, and an e-mail confirmation will be sent for each registration received once payment is received. There is a limit of 6 projects per category per school. During the judging, each project must be represented by 1 or 2 students whose names appear on the project.

*If a student is paired up with another student from a different division, then they must compete in the higher division. For example, if a 6th grader and a 7th grader partner on a project then the project has to be entered into the (7-8) division.
